Career Objective

Motivated BSIT undergraduate with strong skills in Python, Django, MySQL, and frontend development. Passionate about building scalable web applications and solving real-world problems through technology. Seeking a remote opportunity (local or international) where I can contribute my skills, gain professional experience, and grow as a Full Stack Developer.

Technical Skills

- Programming Languages: Python, JavaScript, HTML5, CSS3
- Frameworks & Libraries: Django, Bootstrap
- Database: MySQL
- Tools & Platforms: Git, GitHub, VS Code
- Concepts: REST APIs, Object-Oriented Programming, Problem Solving

Projects

- Jarvis AI Assistant – A voice-based AI assistant built with Python for performing tasks and answering queries.
- Weather Reporter – A Python application using API integration to fetch and report live weather updates.
- Restaurant Management System – A Python + MySQL project to manage orders, billing, and menu.
- To-Do List – A web-based task manager using HTML, CSS, and JavaScript.

(More projects will be added as developed.)

Education

- BS in Information Technology (BSIT) – Ongoing (Jan 2024 – Dec 2027)
